

Admission requirements

The entrance examination test consists of a multiple choice test in **Chemistry, Biology and Physics** in the format of present test, on-line test or on-line interview. Setting the format of the entrance examination remains wholly with the responsibility of the Faculty. In total, there will be **75 questions**, with each subject having an allocation of **25 questions**. There is always only one correct answer and is assigned with 1 point. There are no penalties in case of mistakes. The condition is passing the entrance exam in Physics, Chemistry and Biology and gaining a particular number of points to be admitted.

The minimum number of points necessary for the successful passing of the entrance examination test will be announced well in advance before you sit the entrance examination.

The tests are administered and marked by a university professor. The admission of students remains however within the responsibility of the Dean of the Faculty. Depending on the outcome of the examination, those who achieve the required results enrol at the Faculty of Medicine in Pilsen in late September of the same year.

Beside a successful passing of the entrance exam test , submitting of a completely legalized High school diploma/certificate in accordance the information on our websites is strictly required, as an essential and legal condition for admission and starting study at any University/Faculty in the Czech Republic.
